### **Teen Thoughts**

#### **CYBC, Cyprus**

Presenter: Cyprus. Perhaps one of the most different countries, that will join the European Union next year. But what do teenagers from the island think about their countries and how about their dreams for the future? In this programme we have asked some young Cypriotes

Participants:

Christos Vassiliou, Nicosia, Cyprus

Stefanie, Kyrenia, Cyprus

Nicholas, Cyprus

3:12-4:55 "Safe from Harm" by Narcotic Trust

4:57-5:15 "Walk on water" by Milk Inc.

Duration: 4'16

## Translation

### Teen thoughts

#### CYBC, Cyprus

- 0:18-0:27      CHRISTOS: -I am Christos Vassiliou, 17, from Nicosia. I am finishing school, there's just exams left now and I am off to the army next year.
- 0:32-0:35      STEFANIE: -I am Stefanie and I come from occupied Keryneia.
- 0:39-0:58      NICHOLAS: -I am Nicholas, 18 and I am a pupil at a private school. It's a seven grade school and after the summer holidays, I'll be joining the seventh grade.  
After I graduate I get drafted for two years in the National Guard and then possibly I will study in England.

and you can help them.

2:28-2:50      NICHOLAS: -Cyprus' accession to the European Union has helped all young people to get more education opportunities.  
...and I believe that the accession will be great help, because major foreign companies will invest in Cyprus and there will be more job opportunities.

2:50-2:27      STEFANIE: -Cyprus has grown with its accession to the European Union.  
...Our horizons have widened, we can now study in any country we want, and without paying large sums in fees ...you can go to any university you want...

STEFANIE: -In Europe it is cheaper, yeah, generally, the accession brings Cyprus closer to Europe.  
Europe will get a better understanding of Cyprus, and Cyprus will develop of course.  
Better companies will come over from Europe, and there will be growth in general terms.

3:31-3:56      CHRISTOS: -Many opportunities for studying in Europe open up with our accession.  
....I think that accession can only do good, taxes

will go down, the standards of certain stores  
and certain goods and services will general go  
up, the Cyprus economy will improve and ok, we'll  
get more tourists...
