My Opinion about.....
The future
RTV, Slovenia

Luan, Milenko, Aleš, David

- It would be nice to become a good self-employed person and money here money there. I wouldn't mind.
- I'll wait and see - what will be will be.
- Me in twenty years time. I don't know – a famous rapper.
-dreams....
-dreams, sometimes there are years that are not the best. What will you say now?
- I don't know. Something like him. Thinking about it, in a uniform. I like military uniforms, with a gun in my hand, to fight for something.

Andreja, Lidija

- I don't know, being happily married, three or four children, a job, I don't know, a weekend house and an easy calm life.
- Me too. I'd love to live abroad, I wouldn't like to live in Slovenia. I hope I graduate successfully from university then I would like to be successful in my job, get to know many people I hope I'll have lots of new experience, my life should be interesting.

Primož, Sergej

- I think I'll have a house, a wife, two children- a boy and a girl. I'll try to be actively skating, some already do.
- Me too, a house, hopefully still skating, and a wife and children.

Tina, Domen

- I think five years is a long time from today. You tell first.
- Well, in twenty years time. I hope I'll manage somehow, I hope I'll have my university degree, I believe I will graduate from the Faculty of Art in Ljubljana, or somewhere else. I have many wishes and I have two options - either I do what I really like or I'll find a well paid job.
- I don't know yet. I don't know.... maybe I'll have family, or not. But I see myself as a happy, well-educated and successful person and I will be surrounded by people I like. I would like to become a psychologist or an actress.

Teo

- I don't make plans. I don't care what will be tomorrow. It has to be spontaneous. But if we're talkin about an ideal life then I'd say I'll have a family, two children, hopefully a son, a house and I'll be well educated and I'll have a university degree. And of course I'll have a job unfortunately these days it is hard to get a job.

Barbara, Jasmina, Maruša

- The year 2023 is far away....I hope everything will be ok. and that we will be alive.
- I don't know, I hope I'll have a calm life, because at the moment I haven't got a calm life and it would be nice for a change to live a calm life.
- I think at our age life is really stressful and we have so many problems. I think it will get easier.

Andrej, David

- I'll have a family. I hope. I expect I'll have family and children by that time. This is what I expect and a job. A job I'll love, something I'll enjoy doing and then a nice family. When I come home from work I want to be happy to see my wife and my children....
- And they lived happily ever after.
- That's exactly what I want.
- I haven't got any ideas what will be in twenty years. I've got plans for the next two years. I already know what opportunities I have and I'll try to realize them. What will happen after that - I don't know. Maybe new opportunities will emerge or not, how should I know what will be in ten or twenty years. I do what's the best at the moment and I hope everything will work out fine.

Amadeja, Anja

- I would like to have a beautiful big house and a good job and a good salary.
- I live for today so I don't think too often about my future. This moment is important to me.

Dejan

- I see myself as a successful singer. And I like to dress like my idol. I want to have a family- I want to be successful.
