"My opinion about"
Young Austrians and the future
ORF, Austria

Teen-Poll – Young Austrians' opinion about their future:

00.01: It's a tricky situation. Just finishing school has no use for my future. I will have to attend an university as well, and I will do that. Then I'll go abroad, 'cause here in Austria it's impossible starting a career. Well, I could become a clerk, earn € 2500 and that's it then. No, you have to go abroad, 'cause here in Austria you can't get somewhere. 00.26

00.27: Once I'd like to get married and have some children. We've planned to marry in the year 2007. And then I want 2 kids. 00.33

00.35: I've finished my apprenticeship and now I'm a motor mechanic. Soon I'll be starting a second apprenticeship. I want to become a car salesman. Later on I'd like to run my own business. 00.45

00.46: of course, I'm worried. You never know whether you'll find a job and keep it then. But together – maybe with my own family – you can find a solution. Anyhow, I'm a bit afraid. 00.58

00.59: I want to find a job which is fun and I want to earn a lot of money. 01.03

01.04: First I have to do the military service, after that I'll attend an university and after graduating I want to find a good, challenging job and a future without fear. 01.09

01.10: I only want to play music. I'm not interested in earning money. I just want fun. 01.18

01.19: I'll finish school first, then I want to study law or medicine either in Vienna or in Graz. After graduating I'd like to find a dear husband, get married, have my own house and many children. 01.31

01.32: I am young and flexible – there are so many education-possibilities, so I'm sure I can find a good job. You shouldn't be narrow-minded and insist in staying here in Carinthia. Today you must be prepared for working somewhere else and maybe even in a complete different business. 01.49

01.50: I want to study for sure. I'm not afraid on finding a proper job, somehow I will make it. 01.54

01.55: I am already working, so I'm not afraid of finding a job. You don't have to fear anything, when you continue qualifying yourself. 02.05
