My Opinion about  
Tastes and ideals  
RTP, Portugal**

Gabriela, 13  
Hobby: Ballet

My parents encouraged me.

I went to the first class  
and enjoyed it.

So I stayed on, these past 6 years.

Luis, 15  
Hobby: playing the trumpet

I joined the band when I was small,  
and took to the trumpet.

I started enjoying music.  
I'd like to be a musician.

We must focus on what we must do  
for the exercise to come out right.

For instance, pointing our feet well.

We must see how we point the foot,  
if it's well aligned.

Check if we must turn it out more...

We must do many breathing exercises  
to increase our lung capacity,

in order to get something beautiful  
out of this instrument.

I like lively tunes, romantic airs...  
And I like soccer, too.

I even played in my hometown team,

but then we moved here,  
so I had to quit.

Classical ballet is more tranquil,  
and more... you need more technique.

Modern ballet requires  
something else.

It's more like today's dancing.

I think Modern is different.  
I like it better.

I'd like to study ballet  
in London, if possible.

And then, go on studying.

I think music is beautiful.

It expresses feelings through  
instruments, like this one.
