10:07:11 – 10:07:33 Quote : Piotr Rejmer, president of National Company in Czerniejewo

In my opinion this firm has no chances to survive without European Union aid, without all the structural funds. There are 1300 hectares. And this agricultural production is not able to keep itself, because the cost of living of the palace is very high

10:07:36 – 10:08:09 Quote : Piotr Rejmer

The Palece in Czerniejewo was built in 18th century by Mister Lipski. There are beautiful interiors stocked with old, antique furniture. But now this is hotel. People who come here are really delighted. They may sit and lay down in this antiques. It's unique in both Poland and Europe.

10:08:26 – 10:08:57 Dialogue: Piotr Rejmer with Zbigniew Solarski

P.R -What a disorder! You must push it straight

Z.S -We do something with this straw

P.R. -It can't be longer. A mess like the devil! You have to clean it out, if
Not, you know...

Z.S. -Unfortunately it is fault of the last rain.

10:09:00 – 10:09:18 Dialogue : Piotr Rejmer with Zbigniew Solarski

Z.S. -This cowshed was built in 19th century

P.R. -But it' doesn't matter. Nobody gives us money for nothing. The only one chance is
seizing the opportunity to take the EU Funds for reconditioning

10:09:23 –10:09:52 Quote : Piotr Rejmer

I do want to put EU Funds to good account. I'm going to start a hog raising. Particularly "złotnicka breed". I'll breed here "złotnicka" race. This is the race in request by people in the

West Europe. So here I plan to do it with the scientists from Academy of Agriculture. It will give us money

10:09:58 – 10:10:38 Quote : Karol Warlich ,an orchard keeper

This is the modern orchard. It complies with requirements of EU. It is done in the Dutch fashion. It's a fashion ,but we must follow it. It's easy to calculate –in the future we will sell this apple for one zloty, maybe more.

Now the old ones can be sold at very most for –50 or 80 grosz

So we must plant a new sub-species in demand by customers from Europe. "The wind of change"-In the past nobody carried of it

10:10:57 – 10:11:21 Quote : Piotr Rejmer

Our pheasants-raising is in demand. They sell like hot cakes. We sell 18.000 – 40.000 birds a year. All the things-eggs, chicks and adult birds. We sell it to Denmark, Holland and Spain. They are bought by hunting world

10:11:30 – 10:11:32 Quote : woman, worker

"We put it because they nibble each other"

10:11:52 – 10:12:15 Quote: Piotr Rejmer

In the past people was attaching no importance to this firm. They thought that "national" was equal with "without owner' .So that's why this firm looks like ruin. Now we have to attract both foreign tourists

And Poles who wants to spare their free time surrounded by nature. There are many possibilities to do it-fishing, riding horses and hunting. It's an occasion to benefit from it

10:12:38 – 10:12:41 Quote :Piotr Rejmer

I must be a farmer, a boss and a manager rolled into one

10:12:46 –10:12:54 Quote: Piotr Rejmer

We must put our hands to a task, but without money from EU we don't have a chance to succeed
